

AHANKHAN NADIMKHAN PATHAN

B.Tech. - Computer Science & Engineering

Ph: +91-9023183150

BRIEF SUMMARY

I am a final-year Computer Science student passionate about building software solutions that solve real-world problems and improve day-to-day living. My goal is to become a skilled software developer specializing in building scalable applications, leveraging my expertise in Flutter, Python, and backend technologies to create impactful solutions.

KEY EXPERTISE

Python C++ Java Firebase Flutter C Html CSS Dart Video Editing Graphic Design SQL PHP
PhpMyAdmin Visual Studio State State Management (GetX, BLoC) Unity Big Data Analytics Agile
Software Quality Assurance OOPs

EDUCATION

Nirma University
B.Tech. - Computer Science & Engineering | CGPA: 6.70 / 10

DOON SCHOOL OF EXCELLENCE, Ahmedabad
12th | GSEB | Percentage: 71.20 / 100

DOON INTERNATIONAL PUBLIC SCHOOL, Ahmedabad
2019

INTERNSHIPS

Masterly solutions | IT Product & Services

10th | GSEB | Percentage: **77.16** / **100**

27 May, 2024 - 15 Jul, 2024

Flutter trainee

Key Skills: Dart UI Development Flutter

During my internship at Masterly Solutions, I gained hands-on experience with Flutter, focusing on state management tools such as GetX and BLoC. My responsibilities included:

State Management: Implemented efficient state management solutions using GetX and BLoC to enhance the application's performance and user experience.

API Integration: Developed and integrated APIs to ensure seamless communication between the Flutter application and backend services.

Firebase Integration: Incorporated Firebase into the Flutter application to leverage its robust suite of tools for authentication, database management, and real-time data synchronization.

This experience provided me with a solid foundation in Flutter development, state management, and backend integration, equipping me with the skills to build scalable and high-performance mobile applications.

PROJECTS

E-commerce app 08 Jun, 2024 - 12 Jun, 2024

Mentor: Ms. Bhoomika Patel | Team Size: 1

Key Skills: Flutter Dio Flutter Dart Shared Prefrences Flutter GetX Flutter Visual Studio

Project Link: https://github.com/ahankhanpathan/clothapp

Developed a comprehensive e-commerce application using Flutter, highlighting expertise in mobile development and API integration. The application includes:

Main Page: User-friendly interface with dynamic product filtering and sorting.

Item Detail Page: Detailed product views with images, descriptions.

Shopping Cart and Checkout: Smooth transaction flow with a payment gateway and streamlined checkout process.

Address Management: Easy management of shipping addresses.

User Profile Management: Dashboard for profile settings, order history, and payment methods.

This project enhanced my technical skills in Flutter and API integration, focusing on creating a scalable and high-performance application optimized for an excellent user experience.

Key Skills:

Php PhpMyAdmin Git Github Bootstrap html CSS Mysql Javascript Agile software development

- * SCRUM Leadership: Led a cross-functional team to develop a Hospital Management System (HMS) using PHP, HTML, and MySQL, following SCRUM principles for iterative delivery and regular stakeholder engagement.
- * Operational Streamlining: Reduced administrative tasks and improved patient record retrieval through efficient design and automation.
- * Patient Experience: Enhanced patient services by adding features for appointment scheduling, patient registration, and secure medical records management.
- * User-Centric Design: Developed an intuitive interface based on user feedback, optimizing workflows for staff.
- * System Reliability: Ensured high system reliability and supported an increased number of concurrent users through rigorous testing and continuous improvement efforts.

PERSONAL INTERESTS / HOBBIES

- Video Games
- Swimming
- Movies
